

# high performance diesels

## profleet synthetic motor oils

Valvoline Profleet is a synthetic motor oil, engineered for the needs of high performance diesel engines in truck, bus and industrial applications.

- Synthetic motor oil.
- It fulfils the Ultra High Performance Diesel (UHPD) recommendations of major engine builders.
- Provides maximum deposit control and soot protection resulting in cleaner engines.
- Capable of providing long drain service intervals for trucks driving long distances (consult OEM recommendations).
