

for ultimate protection full synthetic gear oils

A fully synthetic, thermally stable, extreme-pressure gear lubricant designed to operate and protect in both high and low extreme temperature conditions.

- Contains additives to assist in protecting internal components.
- Maintains excellent low temperature fluid protection.
- Provides outstanding thermal stability for cleanliness and longer service life.
- Recommended for conventional transmissions where an API GL-5 is specified.
- Protects parts from rust and corrosion.
- Compatible with conventional gear lubricants.

Viscosities Available:

SynGear 75W-90

SynGear 75W-140
