

# pad up with Valvoline brake pads

The NEW Valvoline range of Performance Brake Pads has been designed to provide solid, all round performance. Backed by the Valvoline Quality Guarantee, we guarantee that our pads are free from defects in both materials and workmanship for the duration of the Brake Pads recommended service life.

Valvoline Performance Brake Pads do not require any “bedding in”. It is, however, recommended that the rotor be machined to ensure even surfaces. Always follow the vehicle manufacturer’s recommendations when replacing the brake pads and ensure that a licensed mechanic performs the replacement.

- Semi metallic pads.
- Low dust and minimal noise.
- Available in part numbers to suit an extensive range of vehicle applications.
- Designed to meet a minimum service life of 12 month / 20,000 km (under normal driving conditions and applicable to non commercial vehicles only)
- Manufactured to QS 9000 standards.
- Backed by the Valvoline Quality Guarantee.

Suitable for:

- Everyday driving
- Non commercial vehicles (12mth/20,000km guarantee not applicable for commercial and racing applications)
