

for everyday driving protection from start-up to shut-down

Valvoline SynGard with advanced Chemaloy shield is synthetic enriched motor oil specially formulated to reduce wear and maintain engine performance in a wide variety of driving conditions.

The components of the Chemaloy shield protects vital engine parts leading to extended engine life when used as recommended.

- Better protection against sludge and varnish deposit to keep your engine running cleaner, longer
- Better cold start protection by flowing more quickly and circulating faster through the engine
- Greater resistance to oil breakdown at high temperatures for strong wear protection
- Fully compatible with all conventional and leading synthetic motor oils
